

Price of Lighting Distribution Boxes for Construction Sites

Article Overview

Construction site lighting distribution boxes typically range from \$150 to \$1,200 or more, depending on size, material, and features.

Typical Price Ranges

- Small portable site boxes for basic lighting and tool circuits: \$150-\$400. These are usually compact, plastic or reinforced thermoplastic enclosures with a few outlets and basic circuit protection .
- Medium-duty industrial boxes with multiple circuits, higher amperage, and weatherproof enclosures: \$400-\$800. These often include metal or aluminum construction, RCDs, and circuit breakers suitable for outdoor construction environments .
- Heavy-duty or custom distribution boxes for large construction sites with multiple lighting circuits, high-power machinery, and advanced safety features: \$800-\$1,200+. These may include stainless steel enclosures, digital monitoring, surge protection, and multiple voltage options .

Factors Affecting Price

- Material and Durability: Stainless steel and aluminum boxes are more expensive than plastic but offer superior corrosion resistance and durability in harsh outdoor conditions .
- Number of Circuits and Outlets: More circuits and outlets increase cost due to additional breakers, wiring, and safety components
