

Price of Outdoor Fiber Optic Cable Mounting Brackets

Article Overview

Outdoor fiber optic cable mounting brackets typically range from \$5 to \$50 per unit, depending on material, design, and load capacity.

Pricing Overview

Outdoor fiber optic mounting brackets vary in price based on material, size, and functionality. Simple galvanized steel or plastic brackets for FTTH drop cables can cost around \$5–\$15 per piece, while more robust, adjustable, or corrosion-resistant brackets designed for pole or wall mounting may range from \$20–\$50 per unit. Brackets that include additional features like stainless steel straps, UV protection, or adjustable angles tend to be at the higher end of this range.

Types and Features

- **FTTH Drop Cable Brackets:** Used for dead-end or tensioned fiber cables; often include stainless steel straps or hooks for pole or wall installation.
- **Pole or Wall Mount Brackets:** Designed for outdoor aerial deployment; may be made of galvanized steel or high-grade polymers for corrosion resistance and UV protection.
- **Adjustable Brackets:** Allow angle adjustments to accommodate cable routing and environmental stresses like wind or ice loading.
