

Price of distribution boxes in Sri Lanka

Article Overview

Pricing distribution boxes in Sri Lanka depends on material, size, type, and supplier, with typical ranges varying from LKR 2,000 to LKR 15,000 or more depending on specifications.

Key Factors Affecting Price

1. Material and Build Quality Distribution boxes are commonly made from ABS, GPPS, HIPS plastics, polycarbonate, or sheet steel. Metal boxes with powder-coated finishes or corrosion-resistant aluminium rails are generally more expensive than plastic enclosures due to durability and outdoor suitability (). 2. Type and Function

- Electrical distribution boxes: Used for power control, protection, and conversion; prices vary with the number of ways (e.g., 6-way, 10-way, 12-way) and inclusion of MCBs, RCDs, or sockets ().
 - Telecom/fiber optic distribution boxes: Designed for structured cabling and FTTH networks; prices depend on port capacity (e.g., 16-port, 24-port) and IP rating for waterproofing ().
3. Size and Capacity Larger boxes with more compartments or higher current ratings cost more. For example, a 400x880x320 mm metal box will be priced higher than a 220x148x97 mm plastic box (). 4. Supplier and Brand Local suppliers like Daraz.lk, HardwareMart, Eastlink, and Nattandiya Electricals offer a range of prices. Imported or branded boxes (e.g., Merlin Gerin) are typically more expensive than generic local products (). 5. Additional Features Waterproofing (IP65), dustproofing, corrosion resistance, and pre-installed accessories (neutral/earth links, din rails, adapters) increase the cost ()....
