

# Price of galvanized cable trays in Gabon

## Article Overview

The cost of galvanized cable trays in Gabon typically ranges from \$10 to \$30 per meter, depending on material, type, and order size.

### Price Overview

Galvanized steel cable trays, which are commonly used for electrical installations due to their durability and corrosion resistance, generally cost between \$10 and \$30 per meter. Prices vary based on factors such as tray type (ladder, perforated, or solid bottom), coating method (hot-dip galvanized or pre-galvanized), and supplier margins . For bulk orders, the per-meter cost can be lower due to economies of scale .

### Factors Affecting Cost

- **Material and Coating:** Hot-dip galvanized trays are more durable and resistant to rust, which increases upfront cost but reduces long-term maintenance . Stainless steel trays are more expensive, while aluminum trays are lightweight but pricier than steel .
- **Tray Design:** Ladder trays are stronger and hold heavier cables, costing more than wire mesh or perforated trays .
- **Installation and Shipping:** Costs can increase depending on labor, equipment, and transportation, especially for heavier trays shipped to Gabon .
- **Order Quantity:** Large commercial orders, such as hundreds of meters, often receive discounted pricing .
