

Price of ground cable tray metal sheets

Article Overview

The price of metal cable trays typically ranges from \$15 to \$50 per meter, depending on material, thickness, and finish.

Factors Affecting Price

- **Material Type:** Pre-galvanized steel is generally the most affordable, hot-dip galvanized steel is mid-range, and stainless steel (304 or 316) is the most expensive due to corrosion resistance and durability .
- **Sheet Thickness:** Common thicknesses range from 1.0 mm to 2.0 mm. Thicker sheets increase load capacity but also raise the cost .
- **Tray Type:** Ladder, wire mesh, basket, or single rail designs influence pricing. Ladder trays are often slightly more expensive due to structural complexity .
- **Length and Width:** Standard lengths are 3 meters, with some suppliers offering 6-meter options. Wider trays or custom sizes increase material costs .
- **Finish and Coating:** Hot-dip galvanization or electro-galvanization adds to the price but improves longevity in harsh environments .

Estimated Price Ranges

- Pre-galvanized steel trays: \$15-\$25 per meter
- Hot-dip galvanized steel trays: \$25-\$35 per meter
- Stainless steel trays (304/316): \$35-\$50 per meter
