

Pricing of Switch Boxes and Distribution Boxes

Article Overview

Distribution boxes typically cost between \$150 and \$2,000, while basic switch boxes range from \$0.50 to \$8 per unit, with total installation costs varying based on complexity and features.

Distribution Box Costs

The price of a distribution box depends on size, material, amperage, number of circuits, and additional features. Standard residential units usually range from \$150 to \$1,500, including parts and professional installation, while commercial or industrial-grade boxes can cost \$2,000 or more due to higher durability, capacity, and advanced control systems. Outdoor or weather-resistant enclosures carry premium pricing, and smart distribution boxes with monitoring and load management features can double the upfront cost but offer long-term savings. Labor is often the largest portion of the total cost, with residential installation typically running \$1,300 to \$1,800, and industrial setups potentially involving weeks of labor and additional permit fees.

Switch Box Costs

Basic switch boxes, used for outlets or light switches, are much cheaper. Plastic single-gang boxes start around \$0.50, while metal or specialized boxes can cost up to \$8 per unit. Costs increase with features like tamper resistance, GFCI compatibility, or deeper boxes for complex wiring. Labor and wiring installation add to the total pr...
