

Professional manufacturer of plastic fiber optic patch cords

Article Overview

GETEKnet, Unisol, and HOLIGHT are leading manufacturers of plastic fiber optic patch cords, offering customizable, durable, and high-performance solutions for industrial, telecom, and FTTH applications.

Key Manufacturers and Offerings

GETEKnet specializes in OEM fiber patch cords, including standard and drop cable solutions for FTTH, telecom, and data center projects. Their products include simplex and duplex cords with SC/APC, LC/APC, SC/UPC, or LC/UPC connectors. Drop cable patch cords are designed for indoor and outdoor use, featuring UV resistance, weatherproofing, and bend-insensitive fibers. Customers can customize length, jacket material (PVC or LSZH), and fiber type (G.652D, G.657A1/A2) to meet project requirements. Unisol Communications manufactures plastic optical fiber (POF) patch cords using PMMA cores with fluorinated polymer cladding. These cords are ideal for short-distance, high-speed data transmission, offering low attenuation, reduced dispersion, and easy plug-and-play installation. The robust polyethylene jacket protects against abrasion, moisture, and handling stresses, making them suitable for industrial, office, and residential multimedia systems. HOLIGHT Optic produces HFBR-4503/4513 POF patch cords tailored for industrial control and automation systems. These cords use 1.0 mm PMMA fiber with a polyethylene jacket, providing high bandwidth, electromagnetic resistance, and mechanical robustness. They are suitable for short-range links (up to 50-100 meters) and can be customized in length, connector type, jacket color, and labeling. Common applications include factory floor...
