

QSFP Optical Module QSFP-DD Free Quote

Article Overview

QSFP-DD modules are available from multiple vendors, with prices ranging from under \$2,000 for short-reach third-party units to over \$130,000 for OEM long-haul modules, and free quotes can be requested directly from suppliers like FS and QSFPTEK.

Vendor Options and Quote Requests

- FS (Fiberstore) FS offers a wide portfolio of 400G QSFP-DD transceivers suitable for AI data centers, enterprise networks, and service provider networks. They provide nearby warehouse shipping, 30-day free returns, and online quote requests for specific modules (). You can select modules based on reach, data rate, and compatibility, then request a free quote directly on their website.
- QSFPTEK QSFPTEK manufactures and sells 1G to 400G optical transceivers, including QSFP-DD modules. They emphasize cost-effective third-party alternatives to OEM modules, claiming up to 90% cost savings against OEM brands while maintaining full compatibility and quality assurance. Free quotes can be requested through their website, and they provide detailed pricing lists and performance validation ().

Pricing Overview

- Short-reach SR8 modules for in-rack connections can cost under \$2,000 from reputable third-party vendors.
- Long-haul coherent ZR+ modules from OEMs can exceed \$130,000 per module.
- Third-party validated modules often provide identical optical performance at a fra...
