

Quotation for 50kW Off-Grid Communication Power Supply System

Article Overview

A 50kW off-grid solar power system typically includes a 50kW PV array, 50kW inverter, and 100kWh battery storage, with prices ranging from approximately \$7,000 to \$35,000 depending on battery type and configuration.

System Components and Configuration

A standard 50kW off-grid system for communication or industrial use generally includes:

- Photovoltaic Panels: 50kW capacity, typically 450-600W per panel, requiring around 100-160 panels depending on wattage .
- Inverter: 50kW hybrid inverter converting DC to AC, supporting single-phase or three-phase loads .
- Battery Storage: 100kWh lithium-ion or gel battery bank, expandable based on load requirements .
- Optional Backup: Diesel generator or utility grid integration for continuous power during low solar availability .
- Mounting and Protection: Roof or ground mounts, temperature control, fire prevention, surge protection, and weatherproof enclosures .
- Monitoring: Intelligent remote monitoring system for fault alerts and maintenance .

Pricing Estimates...
