

Reasonable price for Ethiopian mesh cable trays

Article Overview

Wire mesh cable trays in Ethiopia typically range from \$15 to \$50 per meter, depending on material, load capacity, and supplier.

Pricing Overview

Wire mesh cable trays are considered a cost-effective solution in Ethiopia, offering durability, ventilation, and ease of installation. The price varies based on material type: galvanized steel is the most common and affordable, while stainless steel (304/316 grade) can cost 2-3 times more due to superior corrosion resistance, especially in coastal or chemical plant environments. PVC trays are cheaper alternatives for low-risk or fiber-rich installations.

Factors Affecting Price

- **Material:** Galvanized steel is standard for industrial zones; stainless steel is required for high-humidity or chemical areas.
- **Load Capacity:** Industrial applications typically require trays rated for 100-500 kg/m, which can increase cost.
- **Length and Bulk Orders:** Purchasing in bulk (500 meters or more) can significantly reduce the per-meter price.
- **Supplier and Quality:** Local manufacturers like NAHMA Precision Metal Products and Bhansali Wire Mesh offer competitive pricing and verified quality.
