

Somali Tunnel Bridge

Overview

The bridge, located near Sabid and Anole village, is one of five key bridges to verify the Shabelle river that government forces, with support from the African Union Support and Stabilization Mission in Somalia (AUSSOM) from forces fought hard to capture and maintain control. MOGADISHU, Somalia - A key bridge connecting critical supply routes in Somalia was rebuilt after it was destroyed by Al-Shabaab militants, causing stagnation in the movement of goods and services in the Horn of Africa nation, which has been fighting instability. The Somali National Intelligence and Security Agency (NISA) confirmed the airstrike targeted the bridge in Aw-baalle, a village known. MOGADISHU (Somaliguadian) - An airstrike conducted by international partners destroyed a recently constructed bridge in Somalia's Middle Shabelle region, the Somali National Intelligence and Security Agency (NISA) announced on Sunday. 7 million in cash and arresting 96 people in a six-hour raid is not supported by credible reporting or official. Just months after dignitaries cut the ribbon amid balloons and flags, a Somali military truck crossed the bridge—and it crumbled, stranding the vehicle in twisted metal.
