

Southern European Industrial-Grade Optical Module Factory

Overview

ESTEL designs and manufactures high-performance optical transceivers in Europe, with local technical support and a secure supply chain. Our optical modules power demanding telecom and datacom networks across data centers, metro and long-haul links. Choosing the right SFP module and reliable supplier is crucial for rail, energy, oil & gas, and factory automation projects. This guide reviews Germany's leading. Optical technologies in micro format are the pioneers for industrial innovations of the 21st century. With us, innovative strength endures and stands in a holistic context. We are. As part of the optimization of operating processes, the production sites in Bad Kreuznach (OPC Optical Precision Components Europe GmbH) and Heuchelheim (PPO Pfeiffer Präzisionsoptik GmbH) were relocated to a new site in Biebertal. From development to scalable series production. Optical fiber solutions for applications from high temperature to radiation, harsh chemical. For purposes of inspection, optical instruments in the DUV range ($< 300\text{ nm}$) are used today. We operate cleanrooms of class ISO 5 (100) with very clean work zones under.
