

Standard distribution box with two internal and external doors

Overview

The Double Door IEC Electrical Box is an essential solution for housing electrical equipment and power distribution components in industrial, commercial, and outdoor settings. Built to IEC 60529 standards, it provides optimal protection against dust, water, and mechanical damage. A distribution board is also known as db board or main distribution board is part of an electricity supply system that divides power into smaller circuits. It has a protective fuse or circuit breaker for each circuit in a box. 2 This items comes with 1 YEAR warranty. Unlike standard junction boxes, these distribution systems must. BARTEC stainless steel housings and distribution boxes are designed and approved for Zone 1 and 2 as well as Zone 21 and 22. They are particularly suitable for applications under extreme environmental conditions, and they provide reliable protection under heavy loads.
