

Standard network rack cabling prices

Article Overview

Network rack cabling costs vary by cable type, installation complexity, and rack configuration, with Cat6 drops typically \$150-\$250 and Cat6A \$200-\$350+ per drop.

Network Cabling Costs

Professional network cabling in 2026 generally costs \$150-\$250 per Cat6 commercial drop and \$200-\$350+ per Cat6A drop, with higher costs for finished-wall retrofits or isolated installations due to labor and access challenges . Open-wall pre-wiring reduces per-drop costs, while after-hours work, plenum pathways, and certification increase expenses. Cat6 is suitable for standard endpoints, while Cat6A is recommended for rack uplinks, backbones, and high-bandwidth or multigig traffic runs .

Structured Cabling Services

Companies like Leon Tech Group provide full structured cabling services, including up to 50 meters of cable per run, RJ45 modules, faceplates, back boxes, labeling, and Fluke testing. Containment and patch panels are charged separately, and prices are typically exclusive of VAT . Installation of switches, access points, and other network hardware is available at additional cost.

Network Rack Pricing

Network racks themselves vary based on size, airflow, and cable management features. Many manufacturers offer customizable racks with OEM options, allowing...
