

Structured Cabling Fiber Optic Cable Laying Solution

Overview

Lay out horizontal and vertical cables according to the designed plan, ensuring clear labeling and organization for easy maintenance. Set up consolidation points and main and intermediate cross-connects to allow for flexibility and scalability in network design. Structured cabling offers an organized approach to your network design, replacing the chaos of point-to-point cabling with a standardized, methodical system. The explosive industry growth is being fueled by consumer demands on bandwidth and their need to access information. Structured cabling is the physical backbone of every modern IT environment. Learn how TTI Cable helps build networks that are. At HBS, we provide a team of trained and BICSI certified engineers and technicians to build your system from the ground up or upgrade your current configuration. We'll partner with you to fully understand your infrastructure.
