

Supplier of Industrial Optical Modules in West Asia

Article Overview

While there are no major optical module manufacturers headquartered in West Asia, several leading Asian companies supply industrial optical modules to the region.

Key Manufacturers Serving West Asia

Wavelength Opto-Electronic (Singapore) Wavelength Opto-Electronic specializes in precision optics and optical modules for laser processing, medical imaging, machine vision, and consumer electronics. They produce laser optics across UV, visible, and IR wavelengths, as well as fiber optics and photonics systems. The company distributes products widely in Southeast Asia and can potentially serve West Asia markets through partnerships or regional distributors . Asia Optical Co., Ltd. (Taiwan) Asia Optical focuses on precision glass molding (PGM) for aspherical lenses, plastic lenses, prisms, and optical modules. Their products include high-precision DSC lenses, laser rangefinder modules, and 3D LiDAR systems for ADAS, robotics, and drones. They offer global ODM/OEM integration, making them capable of supplying customized optical modules to industrial clients in West Asia . Young Optics (Taiwan/China/Bangladesh) Young Optics provides integrated optics design and manufacturing, including optical components, optical engines, and modules. They operate manufacturing sites in Taiwan, China, and Bangladesh, forming a robust supply chain. Their expertise includes lens processing, metal processing, and head-mounted display optics, which can be adapted for industrial applications in West Asia
