Thailand New Energy Development Data Center

Overview

It is poised to be the best-in-class hyperconnected data center with state-of-the-art technologies, a high level of security systems, efficient energy management, and the incorporation of renewable energy to reduce its carbon footprint. Auttapol Rerkpiboon, Minister of Energy, delivered a speech on “Data Centre: Transforming the Country” at the Thailand Smart City 2026 Data Centre Seminar organised by PostToday. He revealed that Thailand has developed a strategy to attract major data centre investments, aligning with the global. TikTok leads new BOI approvals as Thailand moves to strengthen power readiness, clean energy access and fast-track strategic investment BANGKOK, THAILAND - Media OutReach Newswire - 6 May 2026 - Thailand's Board of Investment (BOI) has approved six major projects worth a combined 958 billion baht. Thailand's investment promotion agency announced on 10 November 2025 that it has approved four major data centre projects with a combined investment value of approximately US$3. (“Digital Edge”), a leading pan-Asian data center platform backed by global infrastructure investor Stonepeak, today announced a strategic joint venture with B. Grimm Power Public Company Limited (“B.
