

Vanuatu Convergence Switch Company

Overview

Today, Prima is responsible for maintenance and operations of the 'ICN1' subsea cable system connecting Vanuatu to Fiji; we have also recently the signed a contract for the world's first SMART cable system linking Vanuatu and New Caledonia, extending to Australia and Fiji -. Today, Prima is responsible for maintenance and operations of the 'ICN1' subsea cable system connecting Vanuatu to Fiji; we have also recently the signed a contract for the world's first SMART cable system linking Vanuatu and New Caledonia, extending to Australia and Fiji -. The Interchange Group is a Vanuatu-based consortium, committed to a better future for Melanesia. We are providing nation-building telecommunications technologies and infrastructure to communities throughout the entire region, including building the first subsea bandwidth cable connecting Vanuatu. Interchange offers IPLC's from 1 megabit per second (Mbps) to 10 gigabits per second (Gbps) in an easy-to-manage, dedicated and secure data network connecting your sites across borders and networks. With our managed IPLC, we design and implement your solution, and provide ongoing and proactive. Established in January 2014, Prima is a telecommunications and data infrastructure firm based in Port Vila, Vanuatu. Prima offers a high level of experience and expertise in many aspects of IT, with operations spanning satellite teleports, international subsea fibre optic cables systems. Welcome to SPIM LTD! Bandwidth wholesaler in Vanuatu, and owner of AelanSat satellite service and subsea cable between Port Vila and Suva, Fiji. The first cable, ICN1 (Interchange Cable Network 1) links Fiji to Vanuatu and has been in service since 15 January 2014. The cable landing points are: Alcatel Subsea Cable.
