

Various Household Electrical Distribution Box Models

Article Overview

Household electrical distribution boxes come in multiple types, including single-phase, flush-mounted, surface-mounted, and smart boxes, each designed to safely distribute power to home circuits.

Overview

A household electrical distribution box (also called a DB box, breaker box, or panelboard) is a metal or plastic enclosure that houses circuit breakers or fuses. It distributes incoming electrical power from the utility to individual circuits in a home while providing overcurrent protection and a safe disconnection point for maintenance .

Common Types of Household Distribution Boxes

- Single-Phase Distribution Boxes
- Designed for residential use with lower power loads.
- Typically house fewer circuit breakers, sufficient for lighting, outlets, and small appliances .
- Flush-Mounted Distribution Boxes
- Installed inside walls for a clean, unobtrusive look.
- Common in modern homes and apartments where aesthetics are important .
- Surface-Mounted Distribution Boxes...
