

What are some aviation-grade industrial switches

Overview

Our position sensors, sealed, basic, limit, and thermostatic switches are found on a wide range of commercial and military aircraft and carry Parts Manufacturer Approval (PMA) and MilSpec qualification. Our extensive portfolios of high-reliability aviation-specific switches and space-specific connectors withstand the harshest environments. Our integrated engineering, laboratory, and manufacturing group also delivers custom-designed solutions. Used on the Islander as the press to transmit switch on the control yoke. Cole switches provide the highest quality and service life for a wide range of aerospace needs, while ensuring the best possible “feel” for pilots in commercial and. - This switch is designed for water column differential setting capability with stability over varying system conditions. Set point, from 1" to 100" H2O.
