

What are some manufacturers of encrypted communication optical cables

Article Overview

Ciena is a leading provider of optical encryption solutions, while major fiber-optic manufacturers like Corning, Prysmian, and Sumitomo Electric also offer high-performance optical cables suitable for secure communications.

Key Optical Encryption Providers

- Ciena (US): Offers WaveLogic Encryption, a bulk-encryption solution for optical networks that protects all in-flight traffic. Their systems integrate with dense wavelength division multiplexing (DWDM) networks and support high-speed data rates such as 100G, making them suitable for enterprise, government, and utility networks .

Major Fiber Optic Cable Manufacturers

While not all fiber optic cables are inherently encrypted, these companies provide high-quality optical cables that can be paired with encryption solutions:

- Corning Incorporated (US): Known for low-loss optical fibers and high-performance cables for long-distance and data center applications .
- Prysmian Group (Italy): Offers a wide range of optical fibers and cables, including submarine and terrestrial networks, often used in secure communication infrastructures .
- Sumitomo Electric Industries (Japan): Provides single-mode and multimode fibers...
