

What color is 144 fiber optic cable

Article Overview

A 144-fiber optic cable uses a 12-color sequence repeated across 12 bundles or tubes, with each fiber uniquely identified by its position within the tube.

Standard 12-Color Sequence

The TIA/EIA-598-C standard defines the following 12 colors for individual fibers:

- Blue
- Orange
- Green
- Brown
- Gray
- White
- Red
- Black
- Yellow
- Violet
- Pink
- Aqua

Application in 144-Fiber Cables

For high-count cables like 144 fibers, the “Tube and Fiber” system is used:

- The cable is divided into 12 buffer tubes, each containing 12 fibers.
- Each tube is assigned a tube color (often cycling through the 12-color palette or u...
