

What is the cost of a 24kN power optical cable

Article Overview

The cost of a 24-core fiber optic cable typically ranges from \$1.20 to \$3.50 per meter, depending on fiber type, construction, and installation requirements.

Pricing Overview

The price of a 24-core fiber optic cable varies based on several factors:

-

Fiber Type: Single-mode fibers (SMF) are designed for long-distance transmission and generally cost more than multimode fibers (MMF), which are suitable for shorter distances such as within buildings or campuses . Single-mode 24-core cables typically range from \$1.50 to \$3.50 per meter, while multimode versions are slightly lower, around \$1.20 to \$3.00 per meter .

-

Cable Construction: Cables can be tight-buffered, loose-tube, armored, or aerial. Armored or loose-tube cables, often used for outdoor or underground installations, are more expensive due to enhanced protection against moisture, temperature fluctuations, and mechanical damage . Indoor tight-buffered cables are less costly because of simpler construction.

-

Installation Considerations: Costs increase if the cable requires trenching, conduit, s...
