

What types of fiber optic socket panels are there

Overview

Adapter: Holds the fiber connector (e. UPC: APC (Angled): -60dB reflection loss (critical for GPON). UPC (Ultra): -50dB loss (suits most. As fiber-to-the-home (FTTH) and fiber broadband continue to replace traditional copper infrastructure, the Fiber Optic Socket Wall Outlet has become an essential component of modern optical networks. Designed to provide a clean, secure, and accessible termination point for indoor fiber connections. A fiber wall socket (also called an optical termination outlet or FTTH outlet) is the critical endpoint where your home's fiber optic cable connects to the Optical Network Terminal (ONT). However, note that different manufacturers use different colors. It explains all major connector types (LC, SC, MPO/MTP, ST, FC, rugged industrial connectors), the differences between simplex/duplex, single-mode/multimode, boot types, polish types (UPC/APC), and termination methods.
