

Where is a good place for fiber optic cable splicing

Article Overview

Professional fiber optic splicing is best performed by certified companies with experienced technicians and proper equipment, such as North Sky Communications, Zero dB Communications, and Adtell Integration.

Top Fiber Splicing Providers

1. North Sky Communications Based in Vancouver, Washington, North Sky Communications offers full-service telecommunications solutions, including fiber splicing for both aerial and underground installations. Their specialists are trained to achieve minimal link losses and rapid project completion, making them ideal for commercial and large-scale deployments in the Pacific Northwest and Northern California . 2. Zero dB Communications Headquartered in Spokane, Washington, Zero dB provides turnkey fiber optic services across the West Coast. They specialize in metro, long-haul, and FTTH networks, handling everything from design and construction to splicing and testing. Their technicians are experienced with single-strand, ribbon, and large-count cables, using state-of-the-art fusion splicing equipment . 3. Adtell Integration Adtell Integration offers nationwide fusion splicing services, supporting single-mode, multi-mode, and ribbon splicing. They provide complete testing and documentation using Fujikura, Sumitomo, EXFO, and Viavi equipment. Their services include emergency restoration, data center installations, and in-service “hot cuts,” making them suitable for both routine and urgent splicing needs . 4. Richesin Engineering Richesin Engineering provides certified splicing crews in Oregon, Alaska, and Hawaii. They focus on fusion splicing with typical losses und...
