

Which company makes the best fireproof cable trays for tunnels

Article Overview

Top manufacturers of fireproof cable trays for tunnels include Snake Tray, Beerenberg (Benarx), Meka, and EAE Electric, all offering certified, durable, and fire-resistant solutions.

Leading Manufacturers and Their Features

1. Snake Tray Snake Tray specializes in cable management for transit, tunnel, and rail environments. Their products comply with NFPA 130 and NFPA 502 standards and are designed to reduce installation time while maintaining safety and durability. Snake Tray systems are widely used in tunnels worldwide and are manufactured in the USA, ensuring high-quality standards and reliability in critical infrastructure projects . 2. Beerenberg (Benarx Epoxy Cable Tray) Benarx Epoxy Cable Trays provide passive fire protection for critical power and signal cables. Constructed from perforated steel coated with epoxy, these trays withstand mechanical impacts and maintain integrity during fire events. The prefabricated modular design allows quick installation, easy maintenance, and reuse, while significantly reducing lifetime costs compared to traditional ceramic fire protection . 3. Meka Pro Meka Pro offers fire-resistant cable support systems tested according to EN 1363-1 standards. Their products are designed to ensure electricity supply continuity during fires, prevent collapse under load, and avoid toxic flue gases. With over 1,200 fire-tested standard products, Meka Pro provides cost-effective, reliable, and certified solutions for tunnel installations . 4. EAE Electric EAE Electric provides corrosion-resistant cable trays and busbar systems for tunnels and rail systems. Their solutions are designed for harsh...
