

Which company offers reliable protection for primary distribution boxes

Article Overview

ABB, Hitachi Energy, Schneider Electric, Legrand, Rockwell Automation, and ONESTOP ELECTRIC MANUFACTURER are leading providers of reliable protection solutions for primary distribution boxes.

Leading Companies and Their Offerings

ABB offers the Relion family of protection and control relays for primary distribution, including the REX615 and REX640 models. These relays provide multi-application coverage, modular and scalable hardware, and compliance with IEC 61850 standards, ensuring cybersecurity and flexible adaptation to changing protection requirements . ABB products are suitable for OEMs, panel builders, and EPC partners, supporting both new installations and retrofits. Hitachi Energy provides a comprehensive portfolio for primary distribution substations, including automation, protection, and control solutions. Their offerings, such as Network Manager ADMS and MicroSCADA X DMS600, enable real-time monitoring, fault management, and optimized power flows, ensuring high grid reliability and uninterrupted service . Schneider Electric focuses on smart technology for better control and energy efficiency, while Legrand offers stylish, modular systems that simplify upgrades and maintenance. Rockwell Automation emphasizes strong digital integration for monitoring and control, and ONESTOP ELECTRIC MANUFACTURER provides customizable solutions tailored to specific project requirements .
