

Wholesale Price SFP Optical Module QSFP

Article Overview

QSFP optical modules, including QSFP+, QSFP28, and QSFP-DD, are available at wholesale prices ranging widely depending on speed, reach, and supplier, with third-party modules often 50-90% cheaper than OEM options.

Pricing Overview

Wholesale prices for QSFP optical modules vary based on type, data rate, and vendor:

- 40G QSFP+ modules: Typically used for high-density switching and data center applications, prices can range from \$50 to \$150 per unit for bulk orders from third-party suppliers .
- 100G QSFP28 modules: Common in modern data centers, wholesale prices from third-party manufacturers are often 50-90% lower than OEM prices, depending on order volume and compatibility .
- 400G QSFP-DD modules: Next-generation high-speed modules for AI clusters and large-scale data centers, wholesale pricing is higher due to advanced technology, generally \$500+ per unit, but still lower than OEM equivalents .

Third-party suppliers like QSFPTEK and Unitekfiber offer cost-effective alternatives to OEM modules, achieving lower prices through high-volume production, efficient supply chains, and reduced circulation costs . These modules are fully compatible with major OEM hardware, making them suitable for large-scale deployments.
